

## Amendment to Claims

This listing of Claims will replace all prior versions and listings of claims in this Application.

### Listing of Claims

Claim 1. (CURRENTLY AMENDED) A user interface for controlling a peripheral devices comprising:

a peripheral option display generated by the peripheral device's device-specific options driver software for presenting peripheral device-specific peripheral options to a user immediately following selection of the peripheral device from a command bar icon in an independent vendor's PC application, wherein said peripheral option display includes a peripheral device-specific user interface.

Claim 2. (ORIGINAL) The interface of claim 1 which includes a bypass function for de-selecting said peripheral option display.

Claim 3. (CURRENTLY AMENDED) A user interface for controlling peripheral devices comprising:

a peripheral options display generated by the peripheral device's device-specific driver software which automatically displays peripheral options in a peripheral option display including a peripheral device-specific user interface to a user immediately following selection of a peripheral device icon from a command bar in an independent vendor's PC application which includes access to a printer as a secondary function, wherein said peripheral options display includes a peripheral device-specific user interface.

Claim 4. (ORIGINAL) The interface of claim 3 which includes a bypass function for de-selecting said peripheral option display.

C1  
Claim 5. (PREVIOUSLY AMENDED) A peripheral device-specific user interface for controlling a peripheral device comprising:

a peripheral device-specific driver which presents, upon selection of a peripheral device icon, a peripheral option device-specific display including a peripheral device-specific user interface; and

a bypass function for de-selecting said peripheral device-specific display.
